A Systematic Review of Rural Development Research

We conducted a systematic review of the literature to assess the current scientific understanding of rural definitions of health . The online databases PubMed, CINAHL, PsycINFO, AnthroSource, and Sociological Abstracts were searched, followed by a manual search of the reference sections of studies identified through the online database search.

Rural definition of health: a systematic literature review

This systematic review aims to assess reasons for current providers' geographic choices and the success of training programs aimed at increasing rural provider recruitment. This systematic review (PROSPERO: CRD42015025403) searched seven databases for published and gray literature on the current cohort of US rural healthcare practitioners (2005 to March 2017).

Recruiting Rural Healthcare Providers Today: a Systematic

As part of the Rural program, we have done a systematic review of the research on rural resilience. The aim was to find out what we know, what we don't know, and what we need to know about rural resilience in NZ in order to ensure that the work we do fills critical gaps in our understanding.

A Systematic Review of Rural Resilience | Resilience Challenge

Methods: A systematic review of literature was conducted covering 46 articles published in the last five years on vulnerability within rural populations in the US and its territories. Instruments to evaluate both quantitative and qualitative scientific merit were utilized in this review.

A Systematic Review of the Health of Vulnerable

Keywords: Rural, Vulnerable, Social determinants of health The Healthcare of Vulnerable Populations within Rural Societies: A Systematic Review The purpose of this literature review is two-fold. The first purpose is to synthesize the findings of research for the past five years related to vulnerable populations within rural society in the US.

The Healthcare of Vulnerable Populations within Rural

Rural definition of health: a systematic literature review. This review largely confirmed many general characteristics on rural views of health, but also documented the extensive methodological limitations, both in terms of quantity and quality, of studies that empirically compare rural vs. urban samples.

Rural definition of health: a systematic literature review

A Systematic Review of Rural Development Research Characteristics, Design Quality and Engagement with Sustainability 123 SpringerBriefs in Public Health

A Systematic Review of Rural Development Research

This study is a systematic review to examine homeless veterans identified to be most at risk of unsuccessfully completing the VA's housing program (HUD-VASH), which promotes the use of Housing First (HF) as it's model for treating homelessness. The literature review identified those who were rural and experiencing comorbid substance use disorders (SUD) and mental health issues to likely be ...

"A Systematic Review of Rural Veteran Homelessness" by

This systematic review adopted some elements of a 'realist synthesis' approach in its engagement with policymakers, reliance on 'grey' literature and in the development of a theoretical framework to explain what health service models worked well, in which location they worked and why they worked [16].

Primary health care delivery models in rural and remote

Place of death in rural palliative care: A systematic review

Rural Healthcare Workforce: A Systematic Review Evidence-based Synthesis Program. 1. EXECUTIVE SUMMARY . INTRODUCTION . Approximately 20 percent of the US total population lives in rural areas. Patients living in rural areas are often underserved with regard to healthcare access. The complexity of rural healthcare

Rural Healthcare Workforce: A Systematic Review

The aim of this research is to use a systematic evidence review to increase the understanding of the economic, social and environmental impacts of strengthened LTS on rural people. Unlike other systematic reviews, this review is informed by an organisation-specific theory of change that covers a broad set of potential causal chains around LTS and related outcomes and impacts.
