Beyond The Brain Birth Death

Beyond that is the perinatal level in which the human unconscious may be activated to a reliving of biological birth and confrontation with death. Beyond this level, again, is the transpersonal level. How birth experience influences an individual's later development is a central focus of the book.

Beyond the Brain is the world's premier conference series exploring research on whether and how consciousness and mind extend beyond the physical brain and body. The conferences were initiated at St John's College, Cambridge in 1995, by the Scientific & Medical Network (SMN) with the Institute of Noetic Sciences (IONS).

Beyond the Brain | Further Reaches of
Consciousness Research

Beyond Brain Death offers a provocative challenge to one of the most widely accepted conclusions of contemporary bioethics: the position that brain death marks the death of the human person. Eleven chapters by physicians, philosophers, and theologians present the case against brain-based criteria for human death.
