**Geometry: A Comprehensive Course by Dan Pedoe**  
*It covers the geometry usually included in undergraduate courses in mathematics, except for the theory of convex sets. Based on a course given by the author for several years at the University of Minnesota, the main purpose of the book is to increase geometrical, and therefore mathematical, understanding and to help students enjoy geometry.*

***Dan Pedoe (29 October 1910,  
London - 27 October 1998, St  
Paul, Minnesota, USA) was an  
English-born mathematician  
and geometer with a career  
spanning more than sixty  
years. In the course of his life  
he wrote approximately fifty  
research and expository  
papers in geometry. He is also  
the author of various core  
books on mathematics and  
geometry some of which have  
remained in print for decades  
and been translated into  
several languages.***
