So your expected return is 4.6%, but your actual return may be more or less. That illustrates one reason that I don't think people should annuitize - all they are doing the first so many years is paying back THEIR money. Picture putting that same \$250,000 under your mattress. Then each month you can reach in and pull out \$1468.

### Annuities: Why You Shouldn't Annuitize

Over 90% of all annuities are never annuitized. Generally, your variable annuity will continue to grow over time, but annuitization can be an attractive option if something terrible happens to the underlying sub-accounts to which the value of your annuity is linked. However, more common scenarios do not warrant consideration of annuitization.
